

Wattle Distribution

Wednesday November 14th 1-3:00 PM
Parking lot of the Agriculture Building
889 Lakeport Blvd. Lakeport, CA

.....

Lake County Water Resources and the local USDA Natural Resource Conservation District are teaming up to distribute wattles to those whose lands have been affected by the Mendocino Complex fires. Proper wattle placement and installation can help in preventing excess runoff and erosion during storm events. Before attending our wattle distribution day, we encourage you to contact the NRCS office at (707)262-7091 to make sure that installing wattles is appropriate for you and your land. Supplies are limited and will be distributed on a first come, first serve basis. Wattles have been generously donated by Sonoma County.

.....

For more information you can contact
Water Resources M-Th at (707)263-2344. Or visit
